

Introduction highlights

CoroDrill® DE10

Time for change — redefining plug-and-play

The overlooked potential of exchangeable-tip drills is substantial. It's time for change.

Introducing CoroDrill® DE10, the new best-performing exchangeable-tip drill mastering productive short-hole drilling in all materials.

Featuring the universal -M5 geometry, CoroDrill® DE10 offers seamless plug-and-play functionality and uncompromised performance across a wide range of cutting data.

CoroDrill® Dura 462 Drill with ease in all materials

CoroDrill® Dura 462 is your versatile ally for effortless hole making across multi-material applications.

This short-hole drill delivers high process security and superior tool life in all materials, so you can ramp up, lean back and save big.

With a wide assortment available, you can count on predictable and trouble-free drilling in every operation.

CoroCut® 2

Your versatile go-to with added power

CoroCut® 2, the number one versatile parting and grooving concept on the market, is now expanding with two new geometries.

Are you looking for security in hard-to-chip steels? Our -GL geometry features a fierce chip breaker providing unmatched chip control.

Searching for parting-off productivity? Our -CR geometry delivers high-feed performance across a wide range of materials.

Silent Tools™

Next-gen vibration control — tailored to your needs

Experience the pinnacle of vibration-damping technology. For nearly five decades, we have led the way in innovation. Now, we proudly present our complete lineup of upgraded Silent Tools™ turning adaptors.

Explore our extensive standard range of adaptors — Cylindrical, Coromant Capto® and HSK-T — or get a customized solution quickly and easily using our Tailor Made® service.

CoroMill® MS40

The ultimate tangential milling solution

CoroMill® MS40 is engineered with tangentially mounted inserts, maximizing the core strength of the tool body. Its design ensures effortless machining of the most demanding face and shoulder milling applications.

Featuring four cutting edges per insert and a robust cutter body, you can trust CoroMill® MS40 to be your powerful ally in achieving unmatched productivity and reliability.

CoroMill® Plura barrel

Unleash profiling productivity

Discover the secret to higher productivity in profiling applications with CoroMill® Plura barrel. The key to success is the barrel-shaped geometry, allowing efficient profiling of complex surfaces.

CoroMill® Plura barrel rises to the challenge of the most demanding requirements, ensuring optimal performance and high-quality profiling in ISO S materials.

CoroMill® Plura conical ball nose

Navigating tough profiling spots with precision

CoroMill® Plura conical ball nose combines a tapered design with a ball nose feature. This combination enables reach into the toughest spots with unmatched accuracy and high quality.

Designed for semi-finishing to finishing operations in titanium-based alloys and heat-resistant super alloys, this tool excels in flank and point milling creating intricate profiles with ease.
